The movement was a gradual evolution. The spirit of age, the freedom of the Congregational order in church government, the principles of American democracy, all joined to make inevitable a movement toward a free and rational expression in religion. The times conspired with the minds of the Unitarian pioneers. The leaders of the liberal movement simply made articulate the thoughts that were latent in many hearts. They interpreted the convictions and hopes of their fellow-citizens. The movement was the logical development of Puritan idealism, and was nourished by the initiative and decision of the men whose careers are described in this book. The times produced the individual leaders shaped the times. There are, however, four dates in the first quarter of the nineteenth century which can at least be taken as landmarks in the development of an organized Unitarianism in America. The first is 1805, when Henry Ware, an avowed Unitarian, was elected Hollis Professor of Divinity in Harvard College. This appointment was the clear indication that the influence of the oldest and largest American colleges was to be counted on the side of intellectual and religious liberty. It was the manifestation of the growing strength of the liberal party, and became therefore the starting point of the controversy which ultimately divided the Congregational churches of New England.
