Each alternative required the traveler to comply with inspection processes. The pilot was completed in May 2005, and established the technical feasibility of a biometric exit solution. However, it identified issues that limited the operational effectiveness of the solution, such as the lack of traveler compliance with the processes. The fiscal year 2006 expenditure plan allocated 33.5 million to continue the exit pilots for air and sea POEs. According to program officials, US-VISIT is now developing a plan for deploying a comprehensive, affordable exit solution. However, no time frame has been established for this plan being approved or implemented. Meanwhile, US-VISIT plans to conduct a second pilot phase at air and sea POEs that will involve multiple operational scenarios which would compel greater traveler compliance, such as repositioning the kiosks, integrating biometric exit into airport check-in processes, integrating biometric exit into existing airline processes, integrating biometric exit into Transportation Security Administration screening checkpoints, and enhancing the use of Immigration and Customs Enforcement programs intended for enforcement, such as screening of targeted flights at selected airports. Various factors have prevented US-VISIT from implementing a biometric exit capability at land POEs. Federal laws require the creation of a US-Prevented US-VISIT from VISIT exit capability using biometric verification methods to ensure that implementing a biometric the identity of visitors leaving the country can be matched biometrically Exit Capability at Land 22 against their entry records. However, according to officials at the US-POEs VISIT Program Office and CBP and US-VISIT program documentation, there are interrelated logistical, techn.
