Excerpt: . . . 11 Looking Ahead While NASAs past accomplishments are reason for celebration and reflection this year, it is also clear that the future will provide challenges and opportunities no less daunting and inspiring than those of the past half century. Challenges for NASAs aeronautical programs include the national effort to develop of a next generation air transportation system, research to mitigate aviations impact on the environment, and the development of innovative vehicle concepts that can provide new capabilities for civil and military aviation. In human space exploration, NASA is seeking to exploit the research opportunities of the International Space Station, develop a new crew and cargo launch system, and continue to plan for returning astronauts to the Moon, all of which will help build the capabilities required for human visits to other destinations in the solar system. In the area of science, space-based investigations of dark energy, the ongoing search for extant and extinct life beyond Earth, as...
