But in using very cold applications, watch out for haziness of the cornea, when they must be discontinued (Helfrich, Schenck). Now, though this seems paradoxical, warmth is a valuable means of treatment in some cases, and is especially valuable in relieving the pain at night. Let it be dry rather than moist beat. If it has been found that a previously existing synechia is an exciting cause, an iridectomy will be in order, and also later, if other treatments are ineffectual. Of course the underlying cause must be cared for, whatever it may be iris scissors, and cocaine 4 . Introduce between the lids the speculum. With the fixation forceps grasp the conjunctiva directly opposite the point of incision (on the opposite side of the cornea, understand), and thus control the eyeball. (A full dose of chloral hydrate is good in...
