BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 174 pages. Dimensions: 9.7in. x 7.4in. x 0.4in. This report provides a compendium of 128 survey questions used in previous research to assess dietary knowledge, attitudes, and behaviors for low-income populations over the age of 18. The short questions or sets of questions on nine topics, including fruits and vegetables; grains, legumes, and fiber; variety; fat; calcium food sources; nonalcoholic beverages; knowledge, attitudes; and behaviors, are drawn from an extensive inventory and evaluation of available questions reported in the research literature. Each question is presented using a common template including the citations, data sources, and characteristics such as question reliability, validity, sensitivity to change, availability in other languages, mode of administration, use in populations with low-income and/or low-education levels, relation to nutrition and health outcomes, and availability of comparative data. This report is part of a larger ERS research effort to develop a common core set of questions to assess the dietary behavior impact of Food Stamp Nutrition Education (FSNE) on Food Stamp Program participants. This item ships from La Vergne, TN. Paperback.
