Victor and Tatiana Shevtsov, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Children's play activities show that they all have a good sense of rhythm. It is obvious to anyone that has observed how children recite rhymes, march, rock their dolls or skip a rope. The reason that a music instructor may encounter certain difficulties in teaching students to read and understand musical rhythms is usually not their lack of sense of rhythm; rather, it is the inability of young children to correlate it with the way we write music. The exercises in My First Book of Rhythm are intended to bridge the gap between children's habitual rhythmic activities and the principles of writing the rhythm in music. They are based on close analogies that are found between rhythm of speech and rhythm of music, the length of the words and note values or length of the music bars, stresses in the words and strong and weak beats in music, etc. For these exercises we use simple children's rhymes, short phrases and simple words of different length and phonetic structure. Reciting, clapping and counting such speech patterns help children little by little to correlate them with the ideas of regular musical pulse, different note values, music bars, strong and weak beats, and so on. After such exercises the process of learning to read musical rhythm goes much smoother. In each chapter of the book, one aspect of the rhythm is explored. My First Book of Rhythm, Part One is focused on musical pulse, the length of musical sounds and different note and rest values (up to eighth notes and including dotted quarters), and the bar structure of music.
