Four young men live in a world where reality is only what the law crafted it to be. Like most they have never seen their world any different. instead they coasted along making a music band and finding what makes them individuals. Of course free thought and individuality leaves room for error. but how far could this go? Few like Max think for themselves when the law taught them from birth. Maybe they are luck Max came into their lives or maybe people like Max are the reason they live in the world they are in? This story explores: drug addiction, the limites of science understanding human nature, the role of rules in society, strictly monitored education and the idea of matching people off of a DNA test.
