GEOMAGNETICALLY INDUCED CURRENT

Alphascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - Geomagnetically induced currents, affecting the normal operation of long technological conductor systems, are a manifestation at ground level of space weather. During space weather events electric current systems in the magnetosphere and ionosphere experience large spatiotemporal variations reflected also in the variations of the Earth's geomagnetic field. These variations induce currents in conductors operated at the surface of Earth. Electric transmission grids and buried pipelines are common examples of such conductor systems....
